## Professional Summary

Computer Science undergraduate (CGPA: **8.85**) with experience in **Python, JavaScript, backend development, REST APIs, MySQL, and DevOps fundamentals**. Built scalable systems involving authentication, payment integration, and cloud-ready deployment. Solved **200+ DSA problems**; seeking Software Engineering Internship/Trainee roles.

## Education

|                                                 |                   |
|-------------------------------------------------|-------------------|
| <b>Swami Keshvanand Institute of Technology</b> | 2023–2027         |
| B.Tech in Computer Science Engineering          | <b>CGPA: 8.85</b> |
| <b>JKBOSE (Class XII, PCM)</b>                  | 2023              |
| <b>91.6%</b>                                    |                   |
| <b>JKBOSE (Class X)</b>                         | 2021              |
| <b>91%</b>                                      |                   |

## Technical Skills

- **Languages:** Python, JavaScript, C++, SQL
- **Backend:** REST APIs, JWT Authentication, Payment Integration
- **Databases:** MySQL, Query Optimization, Schema Design
- **DevOps/Tools:** Git, GitHub, Linux, Docker (Basics), CI/CD, Postman
- **Libraries:** NumPy, Pandas, scikit-learn

## Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                   |

## Achievements

- Solved **200+ DSA problems** on LeetCode.
- Awarded **Prime Minister's Special Scholarship Scheme (PMSSS)** for academic excellence after Class XII.
- Finalist, **Codeformer-4**; awarded **Best Communicator**.
